

HANNKEY16

Full Stack Developer • UI Designer • AI Engineer

hannkey16@gmail.com | github.com/hannkey16 | instagram.com/hannkey06 | Indonesia — working globally

PROFILE

I design and engineer premium digital products — fast interfaces, intelligent systems, and automation that quietly does the heavy lifting. Six years of shipping, 128+ projects delivered for founders and teams across 9 countries.

EXPERIENCE

Founder & Lead Engineer

2023 — Present

Freelance / Studio HannKey

- Delivered 60+ premium sites and dashboards for founders across 9 countries.
- Cut average page load to under 1.2s with edge rendering and image pipelines.

Senior Frontend Engineer

2022 — 2023

Northwind Tech

- Owned the design system used by 4 product teams; shipped 120 components.
- Reduced bundle size 38% through code splitting and route-level lazy loading.

Fullstack Developer

2020 — 2022

Kanvas Digital

- Built admin panels and APIs on Node + PostgreSQL for logistics clients.
- Automated reporting workflows, saving the ops team 15 hours per week.

SKILLS

Frontend

React, Next.js, TypeScript, JavaScript, TailwindCSS, Framer Motion, GSAP, Three.js

Backend & Data

Node.js, Express, Supabase, Firebase, PostgreSQL, MySQL, MongoDB, Docker

AI & Automation

OpenAI, Claude, Gemini, n8n, Cursor, Lovable, v0, Bolt

Design & Tooling

Figma, Photoshop, Git, GitHub, Replit, Vercel, Vite, Playwright

HIGHLIGHTS

- 2026** Premium product engineering — high-craft interfaces for detail-driven founders.
- 2024** AI + automation — LLM workflows and n8n pipelines removing hours of manual work weekly.
- 2022** Full stack, end to end — dashboards and admin panels with React, Node and PostgreSQL.
- 2020** First lines of production code — landing pages and motion design.
